joshcamp503@gmail.com
(503) 888 - 2479

SKILLS

- ⚛ React.js
- ⬢ Node.js
- JS Javascript
- JS Express.js
- CSS
- MongoDB
- HTML
- ◈ Git

PROJECTS

Audiophile Luxury E-commerce Website

React, Node/Express, MongoDB, JSON, Responsive Design

github.com/joshcamp503/audiophile

- Stored product data in MongoDB and built an API with Node & Express to serve data to the front end
- Built shopping cart from scratch using Local Storage and global state with useReducer and useContext
- Wrote custom hooks to fetch data from server and perform Javascript functions on media size changes
- Used react-router-v6 BrowserRouter and useNavigate hook for site navigation

Where in the World? Geographic Info Resource

React, Fetch API, REST Countries API, Responsive Design   **github.com/joshcamp503/where-in-the-world**

- Website to provide geographic information for 250 countries from around the world
- Used useReducer & aynch Javascript to set global state with JSON data from the REST Countries API
- Wrote custom hook to fetch the data from the REST Countries API with abort controller & error handling
- Provided filter and search functionality using action functions to manipulate state and change display
- Added light mode and dark mode functionality and some subtle CSS animations to improve UX

IP Locator IP Address Geolocator   **github.com/joshcamp503/ip-locator**

Leaflet.js, ipify API, Fetch API, Vanilla Javascript, CSS, HTML, Responsive Design

- Displays location data of any IP address entered into the search bar or location clicked on the map
- Map functionality provided by Leaflet.js library
- Used vanilla Javascript to fetch data from IPify API using information from IP Locator client and Leaflet.js

WORK EXPERIENCE

Portland Professional Construction Self-employed   2017 - Present

- Provided construction, remodeling, & maintenance for property investors, businesses, & homeowners.
- Performed all sales, marketing, customer service, finance, licensing, and administration functions.

EDUCATION

Oregon State University

2011   B.S. Food Science & Technology
